

MANUAL ACTUATOR HEAD 227DMS

Description

The purpose of this actuator head 227DMS is to actuate by manual force the valves of the cylinders on which it is fitted. Once the safety ring is removed from the actuator, the manual lever can be turned in the opposite direction from its resting position to produce the release.

The 227DMS manual actuator head is connected **ONLY** to the upper actuation port of the electrical actuator 227SOL / 227SOLR / 227SOLC / 227SOLCR / 227SOLC125 / 227SOLCR125 by means of a revolving nut which allows its right orientation.

Technical information

MANUAL ACTUATOR HEAD 227DMS	
Re-assembled requirements	Manual (safety ring)
Activation push button	Aluminium or plastic
Connection to electrical actuator 227SOL / 227SOLR / 227SOLC / 227SOLCR / 227SOLC125 / 227SOLCR125	3/4" BSP Female
Approvals	UL-EX15547 FM-3053302

Safety:

Before threading the manual actuator to the activation port of the valve, check that the actuator pointer is retracted (position 1).

If the actuator pointer is in position 2, when threading the manual actuator, the gas extinguisher contained in the cylinder could discharge violently, causing serious injuries to the person handling it.

Do not install the manual actuator without holding the cylinder to the wall with its brackets.

REVOLVING NUT:

Thread it to the valve activation port or electrical actuator.

Do not add sealant, or teflon, or glue.

Tighten with the hand.

To remove the manual actuator from the valve, loosen its revolving nut by hand.

When doing this operation the valve cap must not be turned, as this will cause the contents of the cylinder to be discharged violently, which could cause serious injuries.

Do not remove the manual actuator unless the cylinder is attached to the wall by its brackets.

WARNING: This type of manual actuator 227DMS, is manufactured and approved to be used in fixed extinguishing installations with FM-200[®]. This product is not designed for other use or purpose. If product user has any doubt regarding the application or product use, please contact +34 947 28 11 08. Every not approved use or application or / and any other not approved modification of the product or its function may cause serious accidents or / and personal damages.
