

PRESSURE GAUGE WITH ELECTRICAL CONTACTS (300 BAR)

Description

Assembled in the factory directly on the cylinder valve, it indicates at all times the pressure (in bar and psi) in the cylinder charged with extinguishing agent. In option exists the same pressure gauge with electrical contacts.

The connection of the pressure gauge for INERT-SIEX541-300 to the valves has a non-return mechanism which allows the pressure gauge to be changed or removed with the cylinder pressurised.

Technical information

PRESSURE GAUGES WITH ELECTRICAL CONTACTS	
Part number	Working pressure
UF40I-E300	Up to 300 Bar
Approvals	UL-EX26559 FM-3055956

WARNING: This type of pressure gauge with electrical contacts, is manufactured and approved to be used with IG-541 Gas. These products are not designed for other use or purpose. If product user has any doubt regarding the application or product use, please contact +34 947 28 11 08. Every not approved use or application or / and any other not approved modification of the product or its function may cause serious accidents or / and personal damages.
